165 PUPILS PERISHED

Terrible Result of the Collingwood Public School Fire.

MANY REPORTED MISSING

Bodies Recovered from the Ruins of the Building Were So Blackened and Charred that Identification in Many Instances Was Impossible.

Cleveland, O., March 6.—One hundred and sixty-five lives, all but two of them children between the ages of six and fifteen years, are known to have been lost in the fire which, on Wednesday, destroyed the public school in north Collingwood, 10 miles east of this city.

Several others still are missing and their bodies may possibly be in the ruins.

It probably will be several days before the exact number of dead is accurately determined.

Of the 165 bodies recovered, 108 have been positively identified and 57 still are unknown.

Bodies Blackened and Charred.

The bodies are so blackened by fire and smoke; so battered and bruised by trampling feet, that there is no human chance of their identity being established from anything which they resembled in their life time.

It is only by means of some article of wearing apparel that their names can be ascertained.

The cause of the fire, which, aided by a panic, narrow hallway and doors which it is claimed by many were made to open toward the inside, all is a mystery.

It was first supposed that it came from an overheated furnace or an exploding boiler in the basement of the school house. It has been established that there was no explosion, and the janitor of the school, Fred Hertter, three of whose children died within an arm's length of their father, declares that it could not have come from the furnace.

Believes Fire of Incendiary Origin.

L. R. Gardner, a member of the school board, is positive in his assertion the fire was of incendiary origin. In that portion of the building where it was discovered, there are no electric wires, there was no direct means of creating heat.

There was in the building at the time the fire was discovered between 350 and 375 pupils. They were under the control of nine teachers. Two of these are among the dead.

The school was over-crowded and quarters had been provided for the younger children in the attic. Strange as it may seem, more of the pupils escaped from this part of the school building than from any other. The children were under good discipline, they had been practiced frequently in the fire drill, their teachers without exception retained their self-possession, showing great courage in the face of imminent death, and yet more than half of these little ones died horribly because of faulty building arrangements.

The school house was two stories and a half in height, the walls being of brick and concrete. Inside it was a shell which burned with almost inconceivable rapidity.

Scene Had Few Parallels.

For supreme horror the scenes that were enacted around the rear door of this ill-fated school have had few parallels in this or any other country. Little children were piled upon each other, six and eight deep, while strong men and frantic mothers struggled with desperation to release them. Yet failed and were compelled to stand back and see the little ones die before their eyes.

One woman found her own daughter in this press and stroked her hair and made an effort to keep the flames away. She failed, and the child was burned to death while her mother, helpless, looked on.

From the upper floors of the building two stairways offered exit. One of these led to the front door, the other to the door in the rear. It was in this last place that the lives of the

little ones were lost while would-be rescuers stood helpless.

The scenes that were enacted in the front hall will never be known. The door at this side of the building was never fully opened. But a dense pile of little bodies that lay in the blackened wreckage beneath this point, the feet, the hands, the limbs and the skulls that were scattered about formed a complete index to the horrors that had taken place.

Formed Fire Drill.

When the teachers were informed of the existence of the fire they promptly formed the pupils in columns of march, according to the fire drill, and started them for the door. When the head of the column was nearing the front door a rush of flames met it. Some of the children dashed at the door in the effort to open it while others turned and fled wildly up the stairs. The door was a double one, and one side was held by a spring. The column above, knowing nothing of the fire on the stairs below, kept pressing down and within a few seconds there was a jam, panic and struggle on the stairway and behind the half closed front door that nothing could stop and which cost the lives of all who were caught in it.

Door Opened Inwards.

A far worse tragedy, however, was enacted at the door in the rear. This, it is claimed by many people, opened like the front door, toward the interior of the building.

In order to reach this entrance the pupils were compelled to march down a stairway, make a sharp turn in a narrow hall and then pass through the doorway. It was the lack of space in the hall and the quick bend at the foot of the stairs that cost so many lives at this point. When the first children, fleeing from the fire in front appeared at the door, it was closed. Later it was opened, despite the terrific jam that took place behind it. This would indicate that the door opened outward, but the assertions to the contrary are many and positive and it will probably require an official investigation to determine the facts.

Fled in Frenzy of Terror.

Fleeing from a fire in front, the children came rushing and tumbling down the stairs in a frenzy of terror. The stairs themselves were broad, affording passage to more children in one second than could pass through the hallway, around the sharp turn, and then through the narrow vestibule of the door in ten seconds. At the bottom of the stairs, right on the turn, somebody tripped and fell. In another instant others were down, and in less time than it can be told, the doorway, the hall and the foot of the stairs were packed with little bodies.

They were wedged so tightly that of those anywhere below the top of the mass, none could be moved by the utmost strength of two men combined.

Unmovable Pile of Bodies.

This was proven again and again, for the rescuers struggled and fought until their own hands were scorched almost to cinders, and still they could move no child from out of the pile, and could save no lives beyond a few that they had lifted from the top before the flames came roaring down upon them.

The local fire department, a volunteer organization with little drill and inferior apparatus, came hurrying to the scene, but it was powerless from the first. The flames had gained too great a headway to be checked by the firemen's machinery.

For all that, however, they were wretchedly inadequate to the occasion. They could not force a stream above the second floor and they did not possess a ladder that was long enough to reach the bottom of the fire escape on the rear of the building. Because of this lack of even ordinary precautions more than a dozen lives were lost in this place alone.

Boy's Attempt to Save Lives.

Hugh McFarr, a fourteen-year-old boy, son of the chief of the Collingwood police force, led a line of panic-stricken children down the escape to a point where a ladder would have saved them all. Many of them were too terrified to jump and run back into the building. McFarr followed in the determined effort to bring them out again, and he and

SENSATIONAL CLIMAX

To the Arrest of Two Young Men in New Orleans.

WANTED ON MURDER CHARGE

Chattanoogaan Claims to Have Identified Weatherbee and Hamilton from Published Photos as Men Who Killed His Brother—Deny Charge.

New Orleans, La., March 6.—According to a telegram received here by the police, George Hamilton and C. Weatherbee, young men who were recently arrested in this city on a charge of smashing show windows, are wanted in Rome, Ga., for murder. Following is the message:

Rome, Ga.—George Hamilton, alias W. Vail, and Charles Weatherbee, alias T. C. Felker, wanted for murder. Large reward. Letter on the way. G. E. Berry.

The arrests of Hamilton and Weatherbee came as a sensational climax to a series of daring robberies perpetrated in the heart of the business section by persons who selected jewelry windows as the scene of their crimes.

Several hours after receiving the message from Rome, Inspector O'Connor was called up by R. B. Berry, of Chattanooga, Tenn., who, through the long distance telephone, said that he positively identified the published pictures of Weatherbee and Hamilton as the men who murdered his brother, A. H. Berry, in a hotel in Norfolk, Va., Oct. 20, 1907, and robbed him of \$2,500 in money, a valuable diamond ring and some small trinkets. In Norfolk, said Mr. Berry, Hamilton went under the name of Vail and Weatherbee under the name of Felker.

Hamilton and Weatherbee denied the charge made against them by the brother of the murdered Norfolk man. They declared their innocence and said that at the proper time they would prove they had nothing to do with the murder.

they were never seen again alive.

Miss Anna Moran, the principal of the school, denies that the doors opened toward the inner part of the building, and insists that they were never locked during school hours.

To Investigate Fire.

A rigid investigation is promised into the cause of the fire. Governor Harris announced that the state authorities would look into the matter in a most minute manner. He issued instructions to the department of workshop and factory inspection to commence an investigation at once.

Fire marshals are earnestly seeking to establish the cause and place the responsibility for the fire.

The officials of the coroner's office are also working to the same end. The school board of Collingwood has taken up the matter and will look into it carefully. So far, however, no clues of value and no definite information have been obtained.

FIRE DRILL SAVED THEM.

Repetition of Cleveland Tragedy Was Threatened in Grand Rapids.

Grand Rapids, Mich., March 6.—Grand Rapids Thursday was threatened with a repetition of Cleveland's tragedy of Wednesday on an even larger scale.

Fire broke out in the laboratory of the Central High school while 1,200 pupils were in the midst of the morning work. The signal for the fire drill was given and the children marched out in perfect order. The building was emptied in two and one-half minutes.

The Central High school is overcrowded and the stairways, it is said, are inadequate and fears of a possible panic have long been felt, but the fire drill proved effective.

The fire did comparatively little damage.

To Entertain Friend.

Bonham, Tex., March 6.—Governor Prentiss has appointed a committee to propose an amendment to the Texas Constitution giving benefits to veterans of the Civil War.

SENATOR PROTTER DEAD.

Aged Vermont Representative Passes Away at Washington.

Washington, March 6.—United States Senator Redfield Proctor, of Vermont, died at his apartments at the Champlain here at 4:50 o'clock Wednesday afternoon after a short illness, following an attack of grip. The senator's son, Governor Fletcher Proctor, of Vermont, the governor's wife and several intimate friends were at the bedside when the senator passed away. Senator Proctor was seventy-seven years old.

The senator had been confined to his room for about a week. His illness was diagnosed as grip, which later developed into pleurisy with pneumonia complications which affected the heart and which, in his enfeebled condition, proved too much for his powers of resistance.

The senator's body will be taken to the old home at Proctorsville, Vt.

Senator Proctor is survived by his wife, two sons, Fletcher D. Proctor, governor of Vermont, and Redfield Proctor, Jr., and a daughter, Miss Emily D. Proctor.

Senator Proctor had been a conspicuous factor in the political and business interests of Vermont for many years, and was reputed to be one of the wealthiest members of the senate. He was a civil war veteran, on the staff of General William F. ("Baldy") Smith, secretary of war during President Harrison's administration, and had been in the senate since 1891, when he left the cabinet to succeed George F. Edmunds. The senator was born in Proctorsville June 1, 1831, and served his state as a member of each house of the legislature in turn, and as governor and lieutenant governor.

ENGINE BLEW UP.

Explosion Occurred While Train Was Running 20 Miles an Hour.

Culloden, Ga., March 6.—Engine No. 128, of the Southern local freight train No. 61, blew up at Champion's Spur, 15 miles below here, Wednesday morning.

Four men were injured and it is thought that three of them cannot recover.

Charles W. O'Neill, the engineer, formerly of Atlanta, but now of Fort Valley, scalded and internally injured; will probably die.

Will Walker, fireman, formerly of Atlanta, scalded and both arms broken; will probably die.

Bud Tomlinson, negro, head brakeman, of McDonough, scalded, probably fatally injured.

Robert Tate, brakeman, of McDonough, scalded.

The engine and four freight cars were a complete wreck. The track was torn up for 100 yards. The cause of the explosion is unknown.

The train was running 20 miles an hour. The Central railroad's Perry train took the injured to Fort Valley.

ONE WEEK TO QUIT JOB.

Chief Boden, of Birmingham Police, Receives Warning Note.

Birmingham, Ala., March 6.—Chief of Police Boden, of the Birmingham police department, Thursday morning received through the mails with the Bessemer, Ala., date and postmark, a note reading:

"Chief Boden, we give you one week to quit job; you find out knife if you don't."

On the reverse side of the note was a hand made in black ink.

Chief Boden, when a detective, worked up a number of cases against a shipping clerk of a local biscuit company who was selling sugar, flour and other goods to small storekeepers, foreigners, and the grand jury which adjourned Wednesday returned a number of indictments and several are now being arrested.

Chief Boden says he will take no chances.

Protest Against New System.

Decatur, Ga., March 6.—At one of the largest meetings it ever held, Decatur camp of Confederate Veterans Wednesday night passed unanimously emphatic resolutions condemning the new system of quarterly payment of pensions. These resolutions protest in most vigorous terms against the injustice done the veterans by the change.

MAY RESORT TO FORCE

Japan Resents Action of Chinese Government.

SEIZED ONE OF HER SHIPS

Chinese Soldiers Are Said To Have Boarded the Tatsu Maru and Hauled Down the Japanese Flag—Japan Demands Unconditional Release.

Pekin, March 6.—Japan is threatening force to recover the Japanese steamer Tatsu Maru, which is still retained by China at Huangpu on the Sikiang or West river. This vessel was seized at Macao February 7 by Chinese cruisers on the charge that the cargo of arms and ammunition was intended for Chinese revolutionists, although condemned to a merchant of that place. The cargo is still on board the vessel.

Chang Jen Chun, viceroy of Canton, before taking action, is said to be awaiting proof that the vessel and its cargo should not be confiscated.

Coercion Is Feared.

The coercion of China is feared here on account of the weakness of the government and because of the doubtful legality of Chang Jen Chun's action in seizing the Japanese steamer.

Baron Hyashi, the Japanese minister to China, Wednesday handed to the Chinese government Japan's refusal to accept China's proposal to appoint a joint Japanese and Chinese commission to examine all the charges, in the meantime releasing the Tatsu Maru under bond. Japan's demands are, first, the unconditional release of the steamer and, second, an arrangement to protect the shippers from loss. This second proposal means that China must buy the cargo on board the Tatsu Maru.

China has proposed arbitration by Vice Admiral Sir Arthur William Moore, commander in chief of the British-China station, but Japan refused these overtures also and has warned the foreign board that such proposals are unwelcome. She again expressed her desire for the release of the vessel, failing which she said she would take the steps necessary to secure this release.

Hauled Down Jap Flag.

Japan resents hotly the fact that Chang Jen Chun's soldiers boarded the Tatsu and hauled down the Japanese flag, when, according to the Japanese, the steamer was waiting off Macao for a turn of the tide. The steamer's papers show that she was on her way to Macao. Subsequently Chang Jen Chun, claiming authority under a former treaty between China and Portugal (Macao is a Portuguese dependency) had the vessel arrested in Macao waters. This is according to the viceroy's statement, but it is questioned whether the steamer was actually in Macao waters.

It is understood that the Pekin authorities would have released the Tatsu Maru because of the reasonable doubt as to the legality of the viceroy's proceedings, coupled with the menace of Japan, provided that Japan would make no claim for indemnity. It is contended here that Chang Jen Chun prevented this course.

Alabamian Had Varied Career.

Montgomery, Ala., March 6.—The remains of R. B. Scott, whose career ranged from fighting for England as an officer under Kitchener to engineer of a local street railway, have been brought back from Panama and laid to rest here. Mr. Scott was a lieutenant commander of Prince of Wales, fought in the Boer War and was long stationed at Windsor Castle. He was engineer of the Culebra cut. He died in Panama.

Rev. Frank G. Hughes Dead.

Newnan, Ga., March 6.—Rev. F. G. Hughes died at his home in this city Wednesday night, aged seventy-five years. He had been ill about four weeks. He was chaplain of the Sixty-fifth Georgia regiment in the Civil War, and had been in the active ministry as a member of the North Carolina conference for about forty years.

CORINNE RUNKEL COMPANY.

Presented "In a Tiger's Den" to An Appreciative Audience Last Night.

The Corinne Runkel Company presented "In a Tiger's Den" to a fair-sized audience last night—much larger than the opening night, but not what the company deserved. All who attended, however, have nothing but praise for this company, as every member of the cast is an artist in his or her profession. No show has visited Gainesville this season which has given such universal satisfaction. The show is good, and the specialties, usually threadbare, are unlike anything of this nature seen here. They are all new, catchy and up-to-date, and were appreciated, as was evidenced by the constant applause tendered the performers.

This afternoon the company will present as a matinee "The Hoosier Girl," a beautiful play devoted especially to the pleasure of the ladies and children. After the performance the ladies will hold a reception on the stage, when ice cream, cake, etc., will be served without extra charge. The admission to the matinee will be 25 cents for adults and 15 cents for children.

This evening, which will be the closing engagement, that thrilling Southern drama, "A True Kentuckian," will be presented. This is a fine play, full of interesting points, and, as presented by the Runkel Company, will prove highly entertaining.

A GRAND OPENING.

Mrs. McCormick's Millinery Parlors Thronged With Ladies.

One of the most fashionable millinery openings ever seen in this city is that of Mrs. F. T. McCormick, which began at 3 o'clock Thursday afternoon, and will close today. Hundreds of ladies, attracted by the new and handsome styles, thronged the store and admired the pretty things, with the result that many purchases were made. There were hats to suit everybody and every pocket, ranging in prices from the modest bonnet to a \$40 hat, and all were pretty and neat.

Mrs. McCormick's parlors were tastefully decorated in palms, ferns, Wistaria vines in full bloom, etc., and Mrs. J. M. Hunt, during the visit of the ladies, served delicious fruit punch, which it is needless to add was relished. Each visitor was also presented with a bouquet of sweet violets.

Noticeable among the display was a profusion of imported flowers, comprising sweet pea, large roses and japonica trimmings. These are the handsomest ever seen here, and, with the fine display of hats, were appreciated by the ladies.

THE SOLDIERS' HOME.

Mrs. M. C. Drysdale Says It is More a Hospital Than a Home Now.

The Sun, in recording the proceedings of the meeting of Kirby Smith Chapter, U. D. C., omitted to mention the fact that the chapter had received a letter from Mrs. M. C. Drysdale, Jacksonville, State chairman of the Soldiers' Home, acknowledging receipt of money sent for support of the home.

Mrs. Drysdale thanked the chapter very much for the donation, and stated that there are now thirteen inmates of the home, four of whom are sick and four blind, and that the home is now more of a hospital than a home.

Subscriptions are needed, and those desiring to contribute may send same to Mrs. M. C. Drysdale, Jacksonville, or Mrs. H. H. McCreary, this city, who will see that all contributions are properly forwarded.

REAL ESTATE TRANSFERS.

Dr. J. L. Kelley and L. E. Dean Buy Property of Geo. W. Scofield.

Dr. J. L. Kelley has purchased the cottage of Geo. W. Scofield, West McCormick street, which has been occupied by Mr. and Mrs. Scofield for the past year. It is a neat home of seven rooms, and one of the most conveniently arranged in the city.

Mr. Scofield has also sold to L. E. Dean six lots on West McCormick street, and Mr. Dean expects to erect a nice house at once, reserving five as an investment. Work will begin on the new house as soon as material can be gotten together, as the contract for same has been let. It will be a neat house of about eight rooms, and one which will prove a credit to that section of the city.

YOUNG WOMEN

Young women are often great sufferers for want of proper advice at just the right time.

Mrs. Pinkham, at Lynn, Mass., has always issued to young girls a special invitation to write to her about their sickness. She is a mother and fully understands.

In nine chances out of ten your case will be just the same as those of the young ladies whose letters follow.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

is what you need to restore health.

Miss Abby F. Barrows, of Nelsonville, Ohio, writes to Mrs. Pinkham:

"When I wrote to you I was very nervous, had dull headaches, backache, and was very irregular. Doctors did me no good. Lydia E. Pinkham's Vegetable Compound and your advice made me regular, well and strong. I am now in better health than ever before."

Miss Elsie L. Hook, of Chelsea, Vt., writes to Mrs. Pinkham:

"I am only sixteen years old, but Lydia E. Pinkham's Vegetable Compound and your advice have cured me of sidesaches, periodic pains, and a nervous, irritable condition after everything else had failed."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulence, indigestion, dizziness, or nervous prostration. Why don't you try it?

SOLID CAR OF CABBAGE.

Tampa and Jacksonville Handled First Solid Car of Season Thursday.

The Tampa and Jacksonville railroad handled the first solid carload of cabbage of the season Thursday, the car being billed from Clyatt to Birmingham, Ala. The shipment was of extra fine quality, and will no doubt bring good prices in the market.

Reports from the growers are to the effect that the acreage in cabbage this year will be heavier than for many years, and indications are that the crop throughout will be unusually fine, as this has been a favorable season for cabbage.

The Tampa and Jacksonville is now doing a fine business in the handling of produce shipments, having handled five solid refrigerator cars of lettuce since March 1.

WALDO DEFEATED GAINESVILLE.

The Two Teams Played an Interesting Game in This City Friday.

The Waldo baseball team, composed of the lads of that town, arrived in the city at noon Friday, and in the afternoon met the Gainesville team. There was an interesting and exciting contest, which gave the victory to Waldo by a score of 17 to 11.

Both teams played good ball, notwithstanding the high score, but the Waldo boys proved too good for the home team, which went down easily in defeat.

The game was friendly throughout, and nothing but the best feeling prevailed.

FRIDAY MORNING'S FIRE.

Home Occupied by William Goore and Family Abblaze in Early Morning.

An alarm was turned in from Box 24 about 1:30 Friday morning, which summoned the department with its usual promptness to the house owned by B. F. Hampton and occupied by William Goore and family, West Main street N.

The flames originated on the roof, and were discovered in time to prevent any great damage.

This fire is supposed to have been of incendiary origin, as it is said that coal oil was strongly smelled about the burned place. It is stated that the new cottage, now in course of erection for J. E. Wells, about a block distant from Mr. Goore's home, was also set, but owing to the damp condition of the lumber, the flames only lasted until the oil which saturated the shingles was burned off.

There is no clue to the perpetrator of these arson, but the officers are determined to keep a lookout in future, with a view of apprehending them.

STANDARD STOCK FARM.

Gainesville Stock is Coming Out Big at the Jacksonville Horse Show.

The Standard Stock Farm of this city, which has had a display at the Jacksonville Horse Show under the personal direction of Dr. Clarence B. Strouse, has been winning all the blue ribbons for this great society event, and the stock from this farm has attracted the admiration of lovers of horseflesh from every section of the country.

Dr. Strouse appears in person as driver of these handsome animals, and never fails, according to the papers, to receive enthusiastic applause whenever he appears.

The Standard Stock Farm, like other things in this vicinity, is "all to the good," and has accomplished a great deal towards bringing Gainesville to the front.

MEN WANTED.

No Man Over 45 Need Apply.

There's the sign that's getting to be a common thing in America.

Corporations are retiring men at 50. They are not hiring anyone over 40.

A baldheaded man often looks 10 years older than he is.

A man with gray hair always does. It is important nowadays that a man look as young as he is; it is vastly important that a man having a family dependent upon him should take care of his hair.

If you have dandruff—get rid of it by killing the germs.

If your hair is falling out—stop it.

If your hair is turning gray—don't waste any time.

There is one remedy that will cure these misfortunes and aid you to remain young.

Parisian Sage, the great French Hair Restorer, is guaranteed to permanently remove dandruff in two weeks, or your druggist will give you your money back.

Parisian Sage stops falling hair—it prevents the hair from turning gray. It is the best beautifier for ladies' hair, as it makes harsh, lusterless hair fluffy, soft and beautiful, and is not sticky or greasy.

Parisian Sage is sold and rigidly guaranteed by W. M. Johnson. Price 50 cents a bottle. If you do not live near a druggist who sells Parisian Sage, send us 50 cents, stamp or silver, and we will send you a large bottle, charges prepaid. Giroux Mfg. Co., Buffalo, N. Y.

THE STROBHR CASE.

Oral Argument for New Trial Will be Heard on March 17.

Clark & Fielding have received notice that the case of J. N. Strobar, plaintiff in error, vs. the State of Florida, defendant in error, motion for new trial, will be held in oral argument before the supreme court on Tuesday, March 17.

Hon. W. H. Anderson, tax collector of Levy county, spent Thursday in this city, having come for medical assistance on his dislocated shoulder. Friends will be glad to learn that his condition is very much improved. Mr. Anderson, who is well posted on matters politic, says the pot is not even simmering in old Levy.

Roadmaster J. S. Jolly of the Atlantic Coast Line, formerly of this city but now making his home in Jacksonville, spent a few hours with friends and on business here yesterday. Mr. Jolly says Jacksonville is a fine city and a good place to live, but if he had his personal preference he would be in Gainesville.

Congressman and Mrs. W. B. Lamar and Hon. Jeff Lamar left yesterday for Ocala, after a pleasant visit to this city. Will Paint Letter Boxes.

Postmaster L. C. Lynch has received information from the Postoffice Department at Washington, in which he is instructed to receive bids from local painters for the scraping and painting of the letter boxes throughout the city.

Mr. Lynch desires to give all local painters an opportunity to bid on this work, and requests The Sun to announce these instructions, so that all may have a fair show. Particulars may be obtained upon application to him at the postoffice.

It is not often you have a chance to enjoy a performance by so capable a company as the Corinne Runkel, now at the opera house. I know the ladies would enjoy the matinee today, so turn out all and give this clever company of ladies and gentlemen the patronage they deserve. THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to worldwide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and

Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

Rev. W. K. Piner of Tampa, pastor of the First Methodist church in that city and one of the most widely-known and most eloquent preachers in the State, has been here for the past two days, delivering lectures at the Florida Chautauqua.

Dr. Piner spent the greater part of his time here in looking over the city, and visiting the various points of interest. He is well pleased, and declares Gainesville to be the handsomest, most up-to-date little city he has ever visited. He is also deeply impressed with the hospitality of the people here.

WILL COME OUT IN THE WASH.

There is a good, old, homely expression that "it will all come out in the wash," that is precisely adapted to the present political conditions.

Men who are anxious for office under the primary system may become candidates by the simple process of making an announcement and paying the fees assessed by the party committee.

That many announce for office that are totally unfit for public trust—who have no ability to fill the station to which they aspire—is a natural consequence of the system.

Take an office that requires a large knowledge of accounts, a thorough understanding of modern office system, and the veriest tyro may aspire to it; even though he has had no experience, and hardly education sufficient for him to write his own name legibly.

Never mind, he has a right to run for the office.

But subject his claims and others to the cleansing power of the primary, the clear discriminating judgment of the intelligent voter, and it will all come out in the wash.

Where some men get the idea that they are fitted for office would puzzle the most astute scientists.

They want the office for the money; they want the race to "beat" somebody else, they want everything but the good of the public service.

But that, also, all comes out in the wash.—Miami News-Record.

A GLANCE AHEAD.

If Taft were elected President he would probably have the appointment of three or four justices of the United States Supreme Court. It is not hard to guess how such appointees would stand on the question of government by injunction. With Federal courts packed by Taft, and a big army and a big navy controlled by Taft, there would be no use for a Congress to make laws, or even for the blessed initiative and referendum; since the courts and the army and the navy, both directed by Roosevelt, per Big Bill, would really govern the country without regard to law. This seems to be the true inwardness of the Roosevelt policies, so warmly endorsed by some Democrats, whose hindsight is better than their foresight.

ANOTHER ROOSEVELT PANIC.

President Roosevelt has put the Interstate Commerce Commission to work to find evidence that it is not "my policies" that have brought on hard times and the reduction of the wages of railroad men. As the Commission is a creature of the executive it will no doubt discover that the "malefactors of great wealth," such as Harriman, Hill, Rockefeller, Vanderbilt and others, have been the sole cause of the panic and are reducing railroad wages on purpose to worry the President.

Sheriff Fennell has made a faithful and fearless official, and has many friends in all sections of the county who will give him loyal support.

THE MAN AND HIS JOB

By Herbert J. Hagood.

The psychology of making good, when brought down to its final analysis, resolves itself into two factors—work plus success. Hard work without results or encouragement seldom leaves anything but a disheartened man who has failed.

Thousands of faithful men with brains, in spite of hard work and perseverance, have fallen short of the mark. They saw no results and gave up the game.

But, on the other hand, fortune begets fortune, and every victory is the cornerstone of another triumph.

A second order comes easier than the first, and a signed contract fills a salesman with an enthusiasm against which a thousand turnabouts cannot avail. The initial business venture, if necessary, makes a man more likely to win out in a subsequent enterprise.

With the knowledge of making good comes a physical effect on a man's consciousness which drives him on to a bigger and harder proposition.

Furthermore, the amount of work a man can do is directly proportional to the results which he gets. Whether clerk, salesman or manager, your ultimate success depends on the results you accomplish day by day.

Success is the strongest incentive to hard work, and therein lies the secret of making good.

The anxiety of Republicans for the laboring man is becoming more and more apparent as the election approaches, and even Senator Knox is running Senator La Follette a close race with their employer's liability bills.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle

by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N.Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N.Y., on every bottle.

"The Blood Is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives, and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist doesn't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine or known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Lee, the Hypnotist.

The manager, Mr. Layton, of Edwards' Opera House, has much pleasure in announcing that he has secured the engagement for one week the eminent hypnotist, Prof. S. A. Lee, who will open his engagement on Monday, March 9th. He comes to this city heralded by every town as the greatest "Master of the Mind" known in America. Below The Tampa Tribune gives a brief illustration of his humorous and wonderful performance. Don't fail to see him, as it will be his only appearance here during his tour of America.

"Prof. Lee carries no accomplices and demonstrates the legitimacy of his work by using as his subjects only local people who are well known. Last night about twenty young men of this city volunteered to go on the stage and were used in all the scenes, to the intense amusement of the spectators.

"The Hindoo or Lethian sleep was introduced for the first time in this city and created a sensation.

"Prof. Lee will offer an entirely new program tonight, with the exception of the Hindoo sleep, which will be repeated by special request.

"The engagement is for the entire week, with special matinees on Wednesday and Saturday, and capacity houses should be the rule, as the attraction is a most deserving one."

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? J. W. McCollum & Co.

Information has been received in this city to the effect that H. D. Mason, who is employed at a phosphate mine at Tioga in the capacity of a machinist, and who was run down and painfully injured by a tram car a few days ago, is much better, and that the patient will soon be enabled to resume his duties.

Mr. Mason had a narrow escape from serious injury, and may feel thankful that matters were no worse. In some way he came in contact with this car, which was running at a rapid rate. He was knocked down, his legs and shoulders knocked out of joint, and in all he was rendered helpless. He suffered a great deal, but has borne this suffering well, and in a short time he will be himself again.

CIRCUS COMING.

The Van Amburg Show Will Show Here on the 19th.

The Van Amburg Show, which for years has traveled through the country, and which was founded by Peter Van Amburg many years ago, and which, since his death, has been successfully managed by his sons and grandsons, will appear in Gainesville on the 19th.

The excellent parade is a guarantee that the show is all right. The menagerie part of the show is one of the best extant, and from the variety of its exhibits is instructive and interesting alike to adults and children. The managers have secured Professor Ferris, the renowned writer and naturalist, and the variety of its exhibits is the most pleasing feature.

The animals are all interesting to look upon. The elephants and the monkeys are on deck to beg for peanuts and popcorn. The ponies are a delight to the children, and it is often noticed that many of the older people become enthusiastic to the play, simply because it is so pleasing to the children.

The show will leave a lot of money in the town, paying out enormous sums each day for supplies. The question of meats alone is quite an item. Each lion eats 60 pounds of meat a day, and each tiger 30 pounds; other cat animals eat from 12 to 18 pounds. Baby, the largest elephant in the world, and which weighs 10,000 pounds, is eating all the time, and her infant son, "Major," does his best to keep up with his mother. Anyone

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 25c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.

Our Work Will Bear Inspection

If you are told we cannot put the finest materials in our work at the low charges we make, come to us and let us prove that your informant is mistaken.

WE GUARANTEE that the gold plate in our Crown and Bridge work is 22k fine and S. S. W. finest Platinum Pin Porcelain Faccings. Our rubbers are Ash's imported finest red and pink.

Our Gold Foil for filling purposes is Nelm's Pure Gold Cylinders 24k fine.

Our Amalgam is made from Alva Gold Alloy, as high-grade an alloy as is on the market.

In short, everything is the BEST.

If we give such materials, do our work by Strictly High-Grade, Modern Methods, and are satisfied with a fee 25 to 50 per cent lower than other dentists' charges, isn't it to your own advantage to give us due consideration?

who has an opportunity of learning something about the supplies purchased for a large show knows that they include two entire beeves daily, 450 loaves of bread, nearly 20 bushels of potatoes, 150 pounds of steak and stew meat, 25 pounds of butter, 30 gallons of milk, dried fruit and canned goods to the value of \$50 each day. In addition to this, there is consumed large quantities of eggs, poultry, fish, vegetables, etc. For the horses there are provided 100 bushels of oats, three tons of hay, a ton of straw, 200 bushels of bran, 100 bushels of corn, etc. One of the most commendable features of the great Van Amburg Shows is the gentlemanly conduct of everyone connected with it. This is a subject of much comment in almost every place this big show exhibits.

El Paso, Tex., March 6.—Wayne Brazile was released Wednesday under \$10,000 bond after a preliminary hearing at Las Cruces before Justice Manuel Lopez on the charge of murdering Pat Garrett. His bondsmen are cattle men of the territory and merchants of Las Cruces. The hearing lasted about an hour and only one witness, Carl Adamson, was examined. Adamson was the only eye-witness and he declared that Brazile shot in self-defense.

FUNGUS PARASITES OF HARD OR ARMORED SCALES

By E. W. Berger, Florida Agricultural Experiment Station.

The fungus and other parasites of scales are remarkably effective when they have once gained a foothold in scale-infested trees. It is becoming more and more evident that if we should expend even a small fraction of the time and energy necessary for successful spraying or fumigating, in introducing and spreading the natural enemies of scales (especially the fungi), the results would be equal to the most successful spraying, and the cost would be much less. The fungus parasites of the hard, or armored, scales are peculiarly effective in keeping these scales in check, and so will be alone discussed here.

THE ARMORED SCALES.

These are the commonest of the scale insects, and are distinguished from the Lecanums (the soft, or naked, scales), the cottony-cushion scale and others, by having, as a protection, a rather firm waxy covering, altogether distinct from the body-wall or skin. It is this extra covering (the visible scale) which makes it so difficult to kill these scales by spraying. The purple, long, and chaff scales of citrus, and the San Jose and white scales of peaches, are good examples of the armored scales.

THE RED-HEADED SCALE FUNGUS.

This fungus is widely distributed in Florida and in the Gulf States, and has been reported from near Philadelphia, Pa. It is quite omnivorous in its habits and will probably thrive on all the different species of armored scales. It occurs in abundance on the obscure scale of oaks, and sometimes on the scales of maples and of Chihaberry trees, while it is probably the chief parasite on the scales of citrus trees and on the San Jose scale. Its presence is a boon to the citrus grower. The writer has seen trees in which many branches had the appearance of having been sprinkled with coarse red brick-dust, the color being due to the abundance of this fungus. In such trees the mortality of the scale must have been fully as great as could have been obtained by the most effective spraying.

Its efficiency in reducing the ravages of the San Jose scale has been known since 1897, when Prof. P. H. Roofs reported (Bulletin 41, Fla. Agricultural Experiment Station) the remarkable mortality of this scale at De-Funiak, Fla., as being due to this fungus. During the summer of 1906, Mr. F. P. Henderson of Gainesville, Fla., enthusiastic over his success in his own peach orchard, prevailed upon the Griffing Brothers Co. and the Gainesville Orchard Co. to allow him to introduce this fungus into their extensive peach orchards (comprising 950 acres). Judged by reports and inspections made by members of the Station staff, this undertaking was a marked success. Since then Mr. Henderson has furnished fungus for hundreds of acres.

THE WHITE OR GRAY-HEADED SCALE FUNGUS.

This fungus appears to be as widely distributed in Florida as the Red-headed Fungus, and the writer has occasionally observed instances when it was quite as abundant. In efficiency it is probably the equal of the Red-headed Fungus, in so far as the scales of citrus trees are concerned. In appearance the Gray-headed Fungus is quite like the Red-headed Fungus, except for its color, which varies from nearly white to dark gray or brownish.

THE BLACK FUNGUS.

Small black spots, slightly elevated, generally of various sizes, and sometimes more than one-eighth of an inch in diameter, are often found on the limbs of scaly trees. These are fairly certain to be the Black Fungus. It is widely distributed throughout Florida, and may probably be found on nearly all the common armored scales. When this fungus becomes abundant on the fruit of citrus trees it is difficult to wash or brush it off by ordinary means.

HOW TO INTRODUCE THESE FUNGI.

One or other of these fungi is abundant upon citrus trees in nearly all parts of the State. The Red-headed and Black Fungi are also frequently abundant on peaches, oaks, maples, Chinaberry trees, and other trees infested with armored scales. Large quantities of the Red-headed Fungus have been collected from oaks. The White-headed Fungus has, up to the present, been found only in citrus groves.

For use as infecting material, cuttings of branches or twigs, three to six inches long, are generally made, or the fungus may be simply scraped from the trees. To introduce these fungi into scale-infested trees, the best method is to tie firmly one or several such cuttings (or small pieces of bark), to the upper side of the limbs. If abundant fungus is available, it should be freely used. The infecting material should be tied high up in the trees, and should be distributed (especially if it is scarce) in such a way that many centers of infection are established.

Another method would be to tie a piece of cardboard against the scaly part of a tree so as to form a "wall pocket." Some fungus material scraped from scale-infested trees or from leaves is placed in this pocket, and kept moist for a few days with a wad of wet cotton or sphagnum moss. This method is reported as having given good results with the Red-headed Fungus, but is probably also applicable to the other fungi.

The best time for introducing these fungi is during the period of summer rains. As they grow only on scale-insects, it would be futile to undertake to introduce them into trees free from scales.

POLITICAL ANNOUNCEMENTS

Advertisements under this head, not exceeding nine lines, will be published one time a week in the daily, and one time a week in the semi-weekly, from now until the Democratic primary on May 19th for \$10; after April 1st the rate will be \$5. Cash must accompany the announcement in every instance.

FOR SHERIFF.

In the primary election four years ago I made the statement that if my friends would give me the office at that time, I would not again ask for it. My intentions were pure, and on no account would I have come before you again asking your support, of my own accord, but many of the best men from various sections of Alachua county have petitioned me by writing and a great many others personally to stand for the nomination of Sheriff in the coming primary, and today I received an official request from one of the most powerful moral organizations in the country, urging me to stand for the nomination, and, in deference to their wishes, I announce that I will accept the nomination for Sheriff of Alachua county on the platform and according to the rules of the Democratic primary, held May 19th, and if nominated and elected I will perform the duties of the office with the same impartiality and justice that I have done in the past.

L. W. FENNELL.

March 6th, 1908.

At the earnest solicitation of many friends throughout the county, I announce for the office of Sheriff of Alachua county, subject to the action of the primary election. If elected I assure the people that I will serve them faithfully and impartially.

P. G. RAMSEY.

FOR COUNTY JUDGE.

I respectfully announce myself a candidate for re-election as County Judge. I solicit the votes of all Democrats at the primary on May 19th, and if nominated and elected I will perform the duties of the office to the best of my ability with the same impartiality that has characterized my discharge of the same in the past. Respectfully,

H. G. MASON.

FOR COUNTY COMMISSIONER.

I respectfully announce myself a candidate for re-election as County Commissioner from District No. 5, promising the same faithful attention of the duties of the office in the future as in the past, and solicit the votes of my fellow-Democrats. Respectfully,

J. F. TOWNSEND.

I respectfully announce myself a candidate for County Commissioner from District No. 5. If elected I promise to give my faithful attention to all the duties of the office and serve the people to the best of my ability. I solicit the votes of my fellow-Democrats. Respectfully,

W. F. AVANT.

Island Grove, March 3rd, 1908.

FOR MEMBER SCHOOL BOARD.

I respectfully announce myself a candidate for re-election as a member of the School Board from District No. 1, and if elected promise to serve them in the past, and solicit the votes of my fellow-Democrats. Respectfully,

R. B. WEEKS.

MUNICIPAL

POLITICAL ANNOUNCEMENTS

FOR MARSHAL.

I hereby announce myself a candidate for City Marshal in the election to be held on the 14th day of April, 1908. I promise if elected to endeavor to do the duties required by the ordinances as near as I possibly can, and I solicit the votes of all law-abiding citizens. Respectfully,

CHAS. PINKSON.

I take this method of announcing my candidacy for re-election as City Marshal at the election April 14th, 1908. I have endeavored to perform my duty without fear or favor, and would appreciate the support of my fellow-citizens, promising the same attention to the duties of the office in the future as in the past. Thanking you for past support, and soliciting your votes at the coming election, I am, Very truly,

BEN T. ARNOW.

To the Voters of Gainesville—I take this method of announcing my candidacy for Marshal of the City of Gainesville. I have been on night work as an officer, protecting you and your interests while you were asleep, for about three years, and leave it to you as to whether I have performed my duty well, and with impartiality. I think I have been long enough at night work to be entitled to a day job, and if elected I promise you a faithful, impartial and efficient service. Yours for order,

C. L. KITE.

 Messrs. E. C. DeWitt & Co.,
Chicago, Ill.

Gentlemen:—In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician said I would not live until Spring, and for four long years I existed on a little boiled milk, soda biscuits, doctors' prescriptions and Dyspepsia remedies that flooded the market. I could not digest anything I ate, and in the Spring 1908 I picked up one of your Almanacs as a poor remedied Dyspepsia wreath will grasp at anything, and that Almanac happened to be my guide. After I bought it I can't count both of KODOL-DYSPEPSIA CURE and the result I received from that book, ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I went back to my work, as a merchant, and in three months I was well and hearty. I still use a little occasionally as I find it a fine blood purifier and a good tonic.

May you live long and prosper.

DISCUSSED LOCKER CLUBS.

Columbus City Council Considers the Question at Recent Meeting.

Columbus, Ga., March 6.—The city council wrestled with the locker club question at a lengthy meeting Wednesday night. An ordinance to prohibit such clubs was sidetracked by the city attorney ruling that it was illegal. A substitute imposing a ten-thousand-dollar tax upon locker clubs was defeated by a vote of eight to six votes.

An ordinance providing a penalty of \$100 for the keeping of liquor by private persons or clubs for the purpose of selling was unanimously adopted. This simply provides possibly for blind tiger convictions, for the intention to sell cannot be proven unless it is established that a sale was made.
